Listening to music

Screen that opens when clicked

Turn on flash effect.

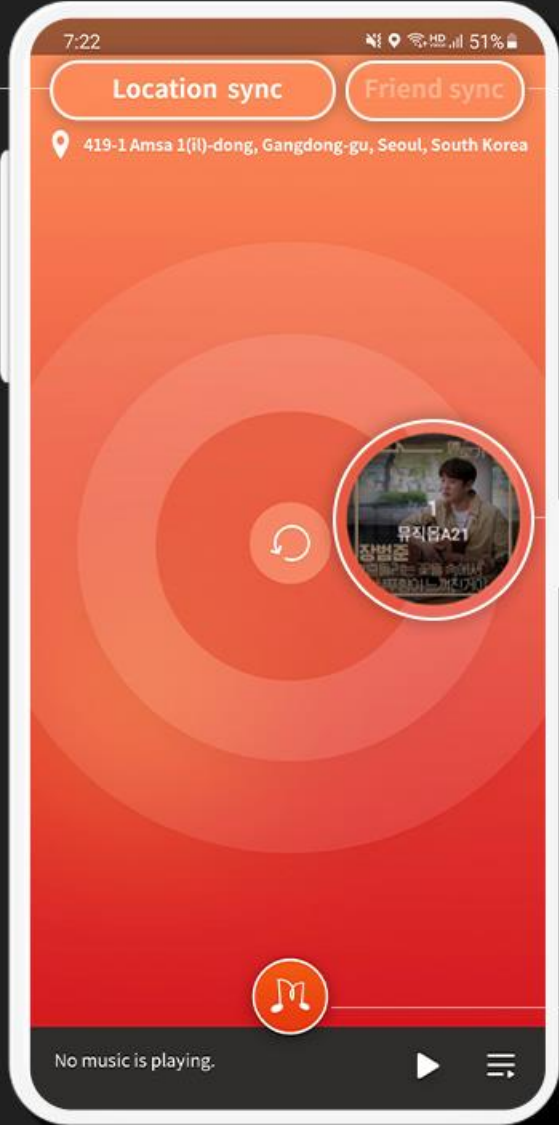

The lyrics of the song and the album jacket image are displayed on the screen / Player

Flash flickers when "Turn on flash" is clicked.

(The flashing flash goes well with the dance song.)

location sync(1)

Click the "Sync" button in the menu on the main screen.> "location sync" is set as default.

If you click the "Friend Sync" button, you can move to the "Friend Sync" screen.

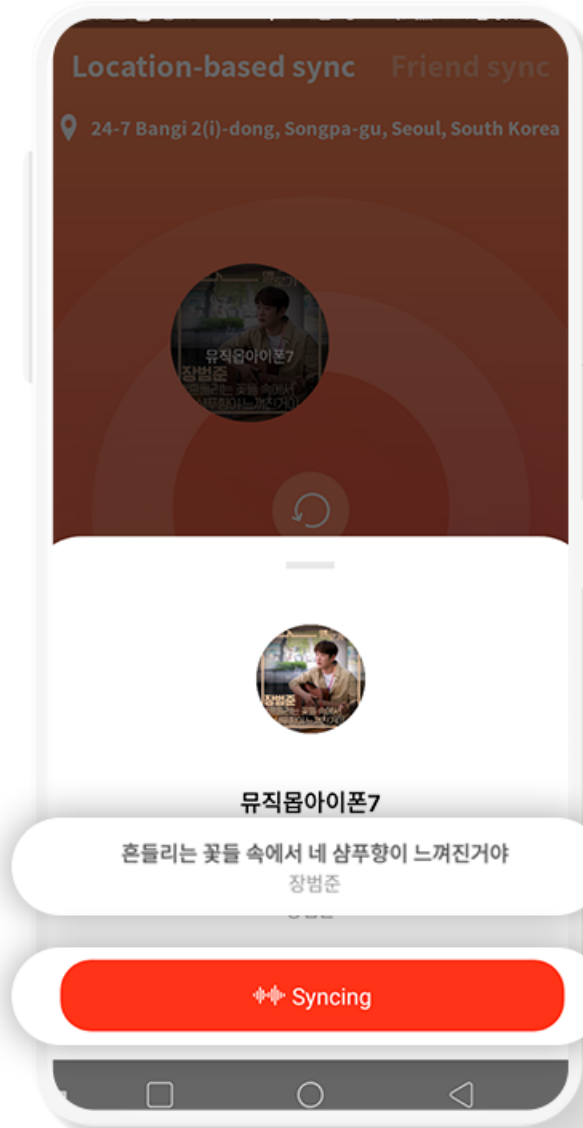

Profile pictures of other members located within a few kilometers of your phone and information on the music you are listening to are displayed.

Menu button

location sync(2)

Swipe the sync screen to move to the Music List Screen.

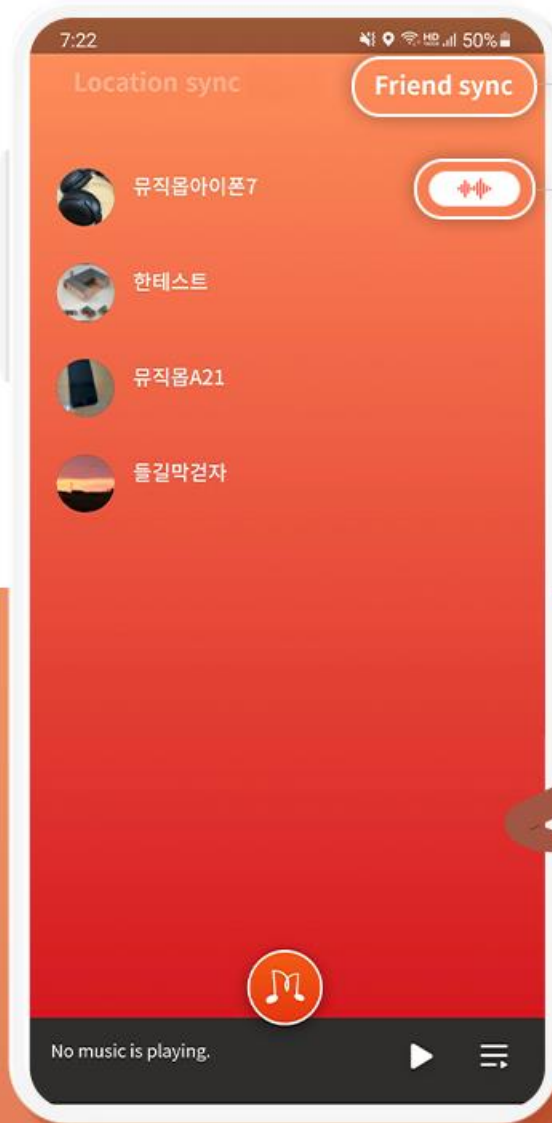

흔들리는 꽃들 속에서 네 샴푸향이 느껴진거야
장범준

Displays information about the music the member is listening to.

◆◆ Syncing

If you click "Proceed to Sync", the music the member is listening to will be synced to your phone and you can enjoy the music with them at the same time.

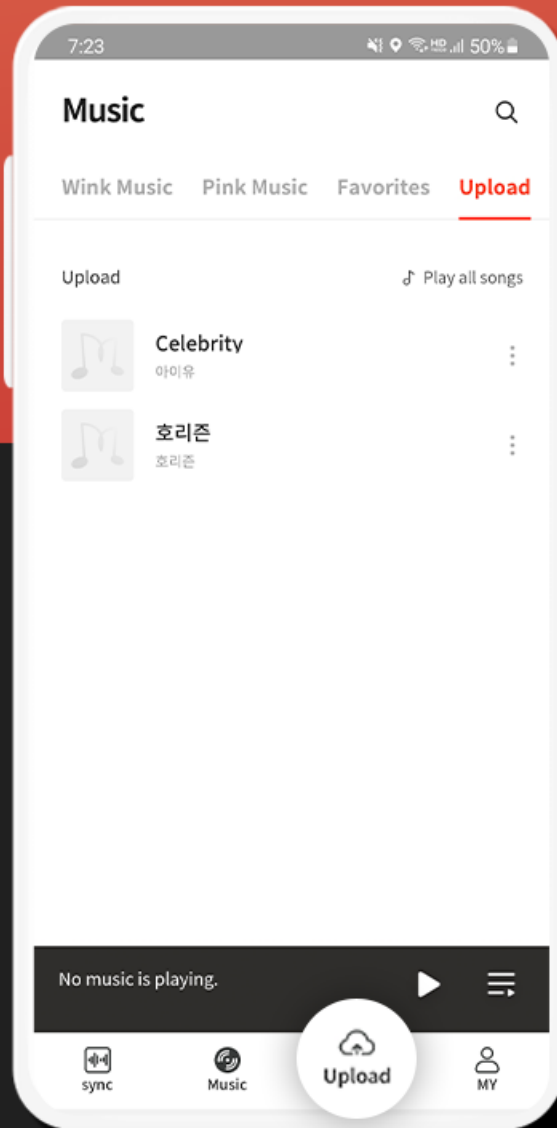

Friend Sync

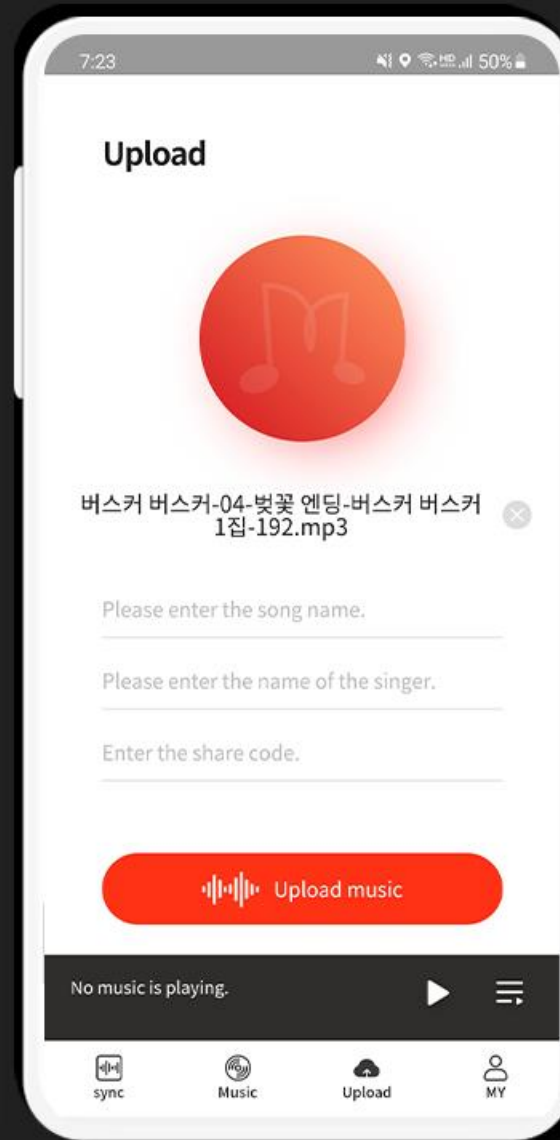

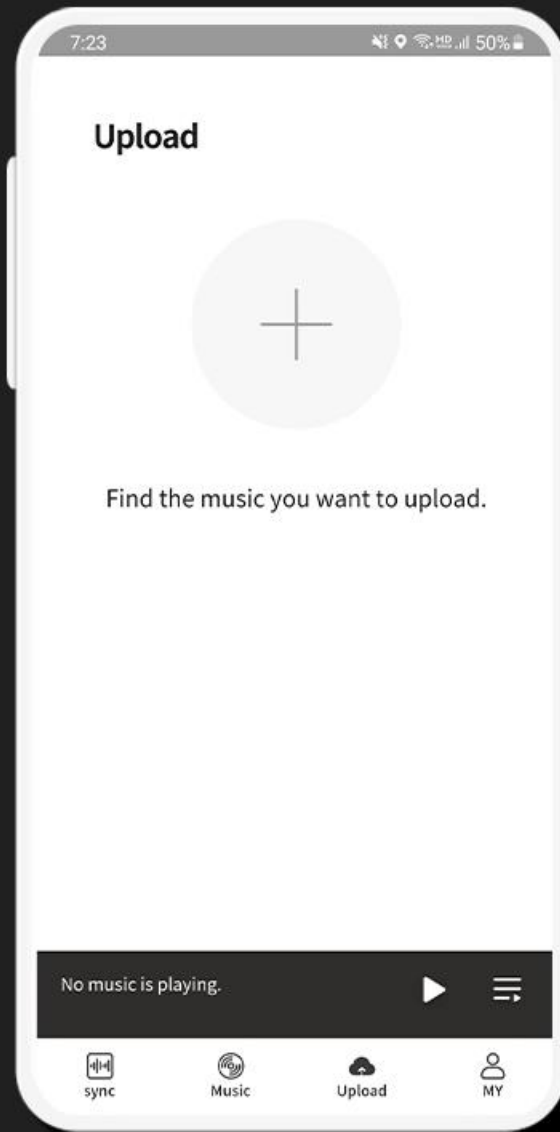

- Click the "Friend Sync" button on the previous sync screen (near/far sync)
- Select a friend who is listening to music on the screen and click the "Sync" button.
> Sync with that friend begins.

Private Upload (1)

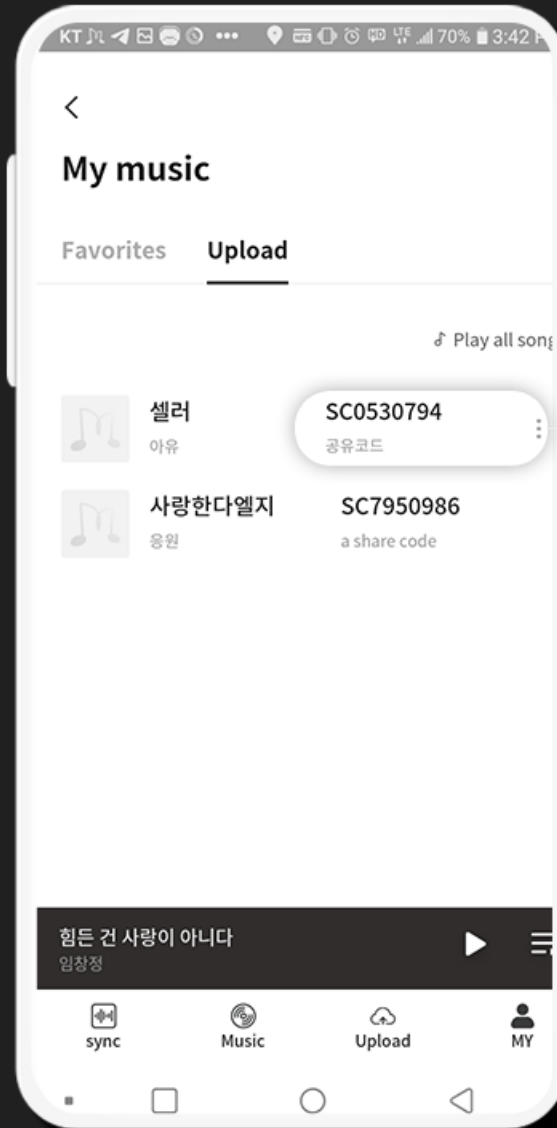

- Syncing music files owned by me and my friend only with the two of us
- Sync the happy birthday song I made, MP3 for learning English with a friend

Only files with the extension MP3 can be uploaded.

Private Upload (2)

In My private list, only the music files I uploaded are displayed.
(You cannot view or listen to files uploaded by other members.)

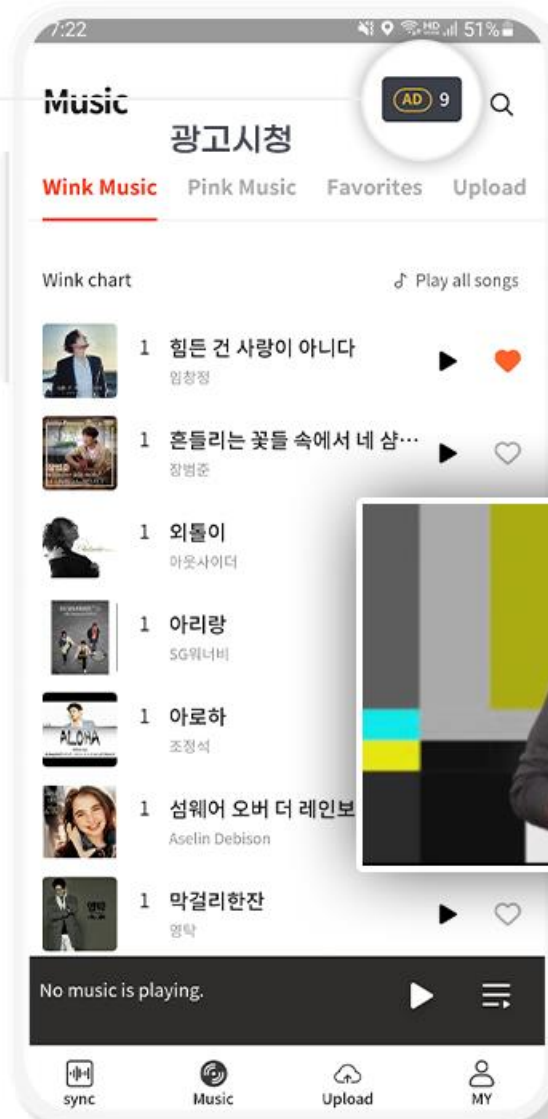

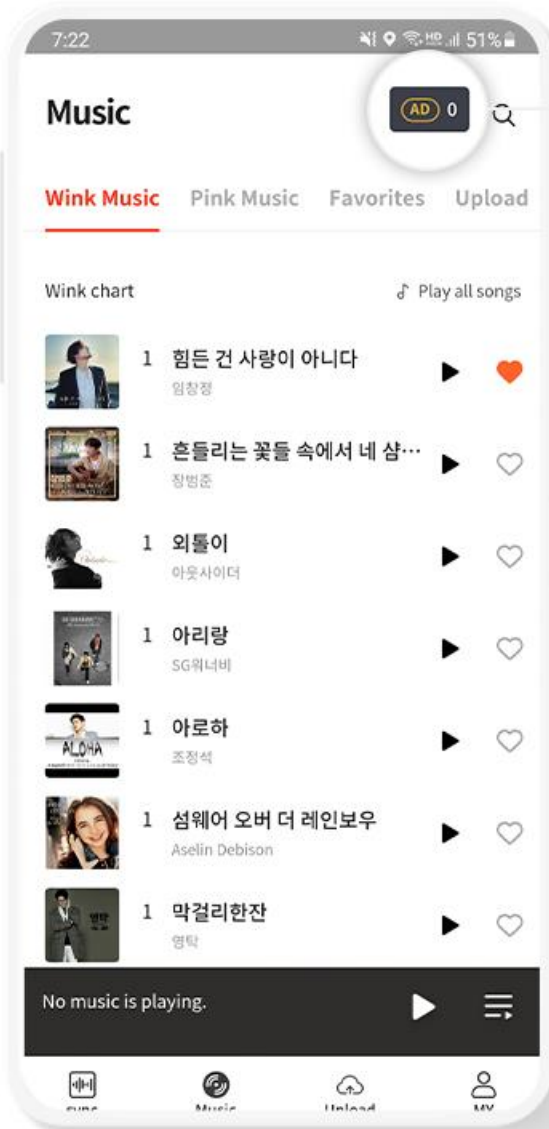

When you upload a file, a unique number for the file is generated.

When you click the upload button on the previous screen, the unique number is displayed

When I upload the same file as my friend, if I enter the unique number created by the friend, me and my friend can sync the music

Reward advertisement

If you watch one video ad, you can listen to or sync 3 songs you want to listen to from the music list or private list.

You can accumulate rewards in advance by watching ads continuously.
